2 INSTALLATION

This section describes how to install the Precise BioMatch™ Flex H Toolkit on a computer for development purposes. The toolkit is supplied with a Windows Installer program. Simply execute the msi file to install all toolkit files to the target computer.

2.1 Files in the Toolkit

After successful installation, the files in the toolkit will be located under the *Program Files/Precise Biometrics* folder on the target computer. The toolkit folder structure is described below.

BioMatch Flex H Toolkit

This folder is the root of the directory structure. The folder contains a *readme* file.

BioMatch Flex H Toolkit/bin

This folder contains the C-interface dll and the .NET-interface assembly of this toolkit.

BioMatch Flex H Toolkit/Documentation

This folder contains White Papers and the Precise BioMatch™ Flex H Toolkit Manuals.

BioMatch Flex H Toolkit/Examples

This folder contains example code and applications demonstrating how to use the toolkit correctly. Examples are available in C, C# and VB.

BioMatch Flex H Toolkit/include

This folder contains the .h files for the C-interface of this toolkit.

BioMatch Flex H Toolkit/lib

This folder contains the .lib file for the C-interface of this toolkit.

BioMatch Flex H Toolkit/Redistributable

This folder contains redistributables for the Precise BioMatch™ Flex H runtime. It also includes necessary dll:s for supported 3rd party fingerprint readers.

3 SUPPORT
